Join the most knowledgeable coding experts in ophthalmology for four hours of professional coding education vital to your success. We'll map out the latest coding updates, review key competencies, test your knowledge and steer you towards successful solutions for preventing claim denials.

Developed by the American Academy of Ophthalmology, Codequest™ provides unparalleled instruction for practices of every size and every specialty.

A wide range of topics will be covered, including all the critical 2023 updates, coding for medical and surgical services, billing and reimbursement insights and regulatory compliance. Codequest is the best way to protect your practice from claim denials and audit recoupments.

The curriculum for this live Zoom webinar will include:

- 2023 Coding Updates and the Financial Impact
- A Comprehensive Review of the Next Wave of E/M Updates
- Myth-Busters: Top Coding Misconceptions and the Facts to Correct Them
- Protect Your Revenue and Take Action to Combat Audits, Comparative Billing Reports and Prior Authorization Requests
- Strategies to Resolve and Prevent Claim Denials
- Poll the Audience: Coding Competency Challenge
- Hot Topic: Coding Guidance for MIGS, Canaloplasty and Goniotomy Procedures
